Andover Strategic Planning

Technology Mission Statement

A purpose, or a reason for being.

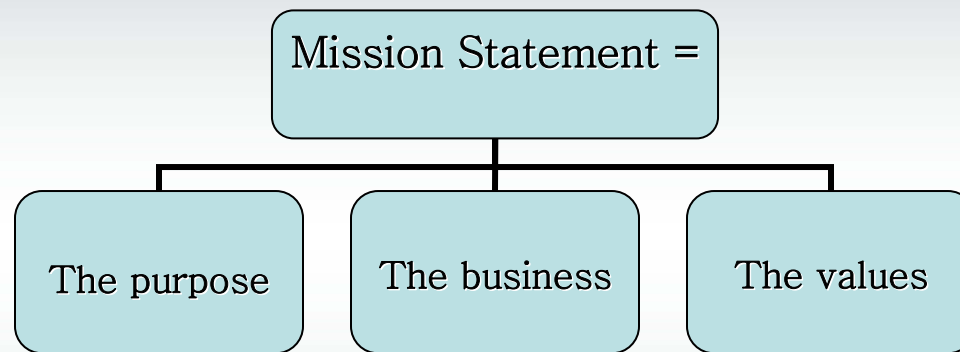

What is it?

- Explains why we exist as a committee
- What we hope to achieve in the future
- Our essential nature, values, and work
- Inspires commitment
- Invites/supports innovation and courage

Why Change?

- Technological advances continue to change our landscape so markedly that our original mission needs modification in order to address these new realities.

Mission Template

Technology Mission

(just an example)

The Technology Department is committed to providing globally responsive and supportive tools supporting curriculum, to all students in a safe, stimulating, and motivating environment; and is dedicated to helping students become lifelong learners and responsible, productive members of a rapidly changing society.

Dissecting Our Mission Statement:

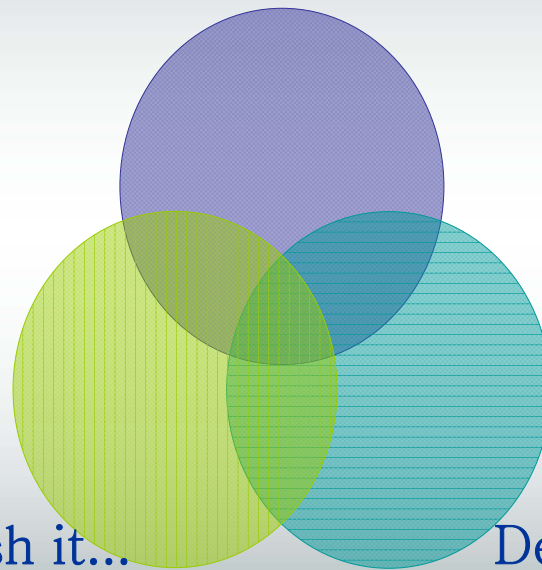

- The Purpose: providing globally responsive and supportive tools supporting curriculum
- The Business: helping students become lifelong learners
- The Values: responsible, productive members of a rapidly changing society

Vision Statements

- *Beliefs* based on the purpose in your mission statement, which will be further delineated by your organizational goals/action plans
- Specific for technology
- Visible declaration of your expected outcomes
- Precise/practical
- Guide the actions of all involved

Direction of identified purpose

How to accomplish it...

Desired outcomes

Vision Killers

- Tradition
- Fear of ridicule
- Stereotypes of people, conditions, and roles
- Complacency of stakeholders
- Fatigued leaders
- Short-term thinking
- “Naysayers”
